Will Google's Texas data centers get 1 gigawatt solar power?

TotalEnergies has agreed to deliver 1 gigawatt of solar capacity to Google's Texas data centers under 15-year power purchase agreements, marking its largest U.S. renewable PPA to date.

What solar projects are being built in Texas?

The electricity will be generated from two TotalEnergies-owned solar projects currently under development in Texas: the 805-megawatt (MWp) Wichita solar farm and the 195-MWp Mustang Creek project. Construction on both sites is scheduled to begin in the second quarter of 2026.

How much does premium energy intelligence cost?

You get the geopolitical intelligence, the hidden inventory data, and the market whispers that move billions - and we'll send you \$389 in premium energy intelligence, on us, just for subscribing. Join 400,000+ readers today. Get access immediately by clicking here.

On July 7, CHN Energy's first gigawatt-level offshore photovoltaic (PV) project, the Guohua Investment Shandong HG14 Offshore 1GW PV Project, received approval from the State ...

China has connected the world's first 1-GW offshore solar farm to the grid, a plant off Shandong set to generate 1.78 TWh per year.

China's 1GW offshore solar farm generates power for 2.67 million while America hasn't built a single floating panel yet.

TotalEnergies has agreed to deliver 1 gigawatt of solar capacity to Google's Texas data centers under 15-year power purchase agreements, marking its largest U.S. renewable PPA to date.

GoTrade News - Google just secured a massive 1 gigawatt of solar power for their Texas data centers. This strategic play comes via two long-term power purchase agreements with energy ...

Google plans to invest \$185 billion in Texas datacenters by 2026, partnering with TotalEnergies for a gigawatt of solar power to fuel its AI ambitions.

1GW-class solar energy

TotalEnergies signed two long-term power purchase agreements (PPAs) with Google to provide 1GW solar energy in Texas, over a period 15 years.

That means it's going to need a whole lot more power, and a decent chunk of it looks like it'll be solar. On Monday, the search and advertising titan entered a power purchase agreement (PPA) ...

China's CHN Energy has launched full operations of the 1GW HG14, the world's largest floating solar project, featuring innovative weather-resistant design and powering a significant portion ...

Google has signed two Power Purchase Agreements (PPA) with French power company TotalEnergies for more than 1GW of solar capacity across Texas.
