Whether you're a wind farm operator in Norway or a hospital in Nigeria, mobile storage adapts to your needs. Pro Tip: Always request a site-specific feasibility study before purchasing. With 12 years in ...

From container energy storage system for utility grids to compact energy storage system container for batteries in industrial applications, we deliver solutions that optimize energy usage, reduce costs, ...

The system adopts lithium iron phosphate battery technology, with grid-connected energy storage converter, intelligent control through energy management system (EMS).

The charging container, designed for demanding construction sites, generated remarkable attention and interest, including from Norway's former prime minister, Erna Solberg. The container is available in ...

Storage2power is revolutionizing energy storage with its innovative system that utilizes compressed air as a sustainable energy storage mechanism. Their technology integrates various energy sources, ...

Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic container systems and battery energy storage containers.

This 1MW Battery Energy Storage System The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and ...

With Norway's electricity prices hitting EUR0.43/kWh in 2023 (Statista) and grid upgrades lagging behind Arctic infrastructure demands, mobile solar-storage hybrids are becoming industrial lifelines. Here's ...

Mobile storage vehicles are emerging as the missing puzzle piece, blending portability with industrial-scale power. Think of them as "battery banks on wheels" that balance renewable fluctuations while ...

1MW mobile energy storage container for field operations in Norway

We manufacture high-quality stationary and mobile Battery Energy Storage Systems (BESS) designed and built in Norway. Our systems deliver reliable power, fast deployment, and industry-leading safety ...
