Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

This easy to install cabinet adds one or two 48 Volt battery strings and up to a 200AH battery. It seamlessly abuts your existing cabinets and its compact design is less than 12 inches wide. Its ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

2U Rack/Tower convertible form factor to provide flexibility at sites with variable installation needs. When incoming utility power fluctuates, AVR stabilizes the output power without needing to go to battery, ...

VRLA (Valve Regulated Lead Acid) batteries are lead batteries with a sealed safety valve container for releasing excess gas in the event of internal overpressure. Their development was aimed at limiting ...

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Save space, flexible placement: Supports back-to-back installation, side output, and does not require pre-installed cable ducts/cable racks for battery cabinet installation, saving on site costs.

From the industry leader in data center backup batteries, C& D now offers a configurable cabinet solution. In addition to our premium, reliable stationary batteries, we carry a full line of well ...

The EBC System consists of (2) 2U cabinets per string (total 4U per string) and provides the Liebert ITA2 UPS with extended battery runtimes. It is easy to install and operate.

## 2MW lead-acid battery cabinet for transmission nodes

Choose from a line of custom NEMA battery enclosures designed to house and safeguard your generators in the long term. Each enclosure meets rigorous industry standards for quality you can ...
