-----

Better light trapping and current collection to improve module power output and reliability. The N-type module with Hot 2.0 technology has better reliability and lower LID/LETID. Excellent Anti-PID ...

Detailed profile including pictures, certification details and manufacturer PDF.

This document provides specifications for a monofacial solar panel model PU630SNM102. It details the panel's rated and maximum power, electrical parameters under standard and nominal conditions, ...

The SP635M-78H module combines the S-TOPCo 2.0 technology with 182mm half-cut cells to ensure impressive efficiency levels (up to 22.72%) ranging from 605W to 635W, and maximize the energy yield.

Unlike conventional 72-cell panels measuring 2.0m x 1.0m, the JA Solar 630W utilizes advanced double-glass encapsulation and zero-gap interconnection to maximize surface area utilization.

Discover the Silfab SIL-630 XL Bifacial Solar Module. High-efficiency 630W panel with N-type cell technology for utility-scale projects. Made in USA with 25-year warranty.

Explore our resources about Silfab Solar products, including technical downloads, data sheets, pan files, & consumer information sheets. Learn more.

- 630W high-efficiency bifacial solar panel with N-type TOPCon cells, dual-glass construction, and 23.32% conversion efficiency. Ideal for large-scale PV projects, trackers, and harsh environments.

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices. The ...

Specifications included in this datasheet are subject to change without notice. LONGi reserves the right of final interpretation.(20241118 BGV02 Draft)
