-----

\*The regular product warranty is 15 years, please refer to the latest version of AESOLAR Limited Warranty for the duration of the product warranty under special conditions. for extensions, please ...

AE Solar is a German tier 1 solar panels manufacturer founded in K&#246;nigsbrunn, Germany in 2003, by 3 brothers; Alexander, Victor and Waldemar Maier. [1] . The company is headquartered in K&#246;nigsbrunn ...

AE Solar has unveiled three different solar modules based on n-type tunnel oxide passivated contacts (TOPCon) cell technology. "The new module will be produced at our 1,500 MW ...

AE Solar brand has become synonymous with high-performing, top-quality photovoltaic modules and has specialized in PV technology innovation, application, and system development.

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices. The ...

Solar panels work by converting sunlight into electricity through a process called the photovoltaic effect. The solar cells within the panels absorb sunlight, and the energy from the absorbed light creates an ...

These modules, equipped with TOPCon solar cells, showcase superior bifacial properties in comparison to PERC solar cells, with a power range of 415W to 725W, resulting in an enhanced energy yield.

With a maximum system voltage of 1000 V and a temperature coefficient of -0.42 %/&#176;C, these solar panels can perform optimally even in challenging weather conditions.
