Modules (glass, junction boxes, connectors, etc.) shall be protected from long-term exposure to environments containing sulfur, strong acid, strong alkaline, etc., which may pose a risk of corrosion to the product. Do not ...

The installation of the modules shall be strictly carried out by professional technicians. Please read this manual carefully before installation.

The Solarspace Double Glass Photovoltaic Modules Installation Manual provides comprehensive guidelines for the installation, safety, and maintenance of solar PV modules.

Professional installers must read these guidelines carefully and strictly follow these instructions. Failure to follow these instructions may result in death, injury or property damage. The installation and handling of PV ...

There are 4~6 pairs of 9\*14mm mounting holes on the frames of each Module, which can be used to ideally fix the Module to the supporting structure to optimize its load bearing capacity.

During Modules installation and routine maintenance, operators should follow all safety precautions in this manual and local regulations. If you have any questions, please contact our sales department for further ...

This general manual applies to the installation, maintenance and use of the double glass solar modules manufactured by ZNSHINE PV-TECH Co.,Ltd. (hereinafter referred to as "ZNSHINE SOLAR").

The low/normal level of load condition is applicable to the installation in most of environmental conditions: the maximum static load on the back of the modules is 2400 Pa(i.e. wind load), and the maximum static load on ...

## Are there any requirements for installing double-glass modules

In order to ensure that the modules can withstand a downward force of up to 2400 Pa (244 kg/m<sup>2</sup>), the modules shall be fixed on the bracket with the long side of the module, using a minimum of four ...

You must understand and follow all applicable local, state and federal regulations and standards for building construction, electrical design, fire and safety, and must check with local authorities to determine applicable ...
