Is Vivint Solar a good solar company?

Other options on the market from Tesla and other providers have not quite gotten to this point of combining safety, security, and comfort with the solar system, which is why we give the Vivint Solar company 4.6/5 stars. In addition, the company has some very strong positive reviews from homeowners.

How much does a Vivint Solar System cost?

These numbers are based on average system sizes and installation costs for the solar panel brands Vivint carries. These prices fall below the industry average of \$20,979 for a similarly-sized system, meaning Vivint is below average when it comes to cost.

Where are Vivint Solar panels made?

With Vivint's headquarters being in Lehi, Utah, they started offering solar panels in addition to the home solar system. Over time this started to expand, and eventually, Vivint went on to offer solar power systems in 21 states. Sunrun purchased the company in July 2020.

How does Vivint Solar work?

Three of the options that Vivint Solar uses to help homeowners handle the costs associated with solar services are solar loans, power purchase agreements (PPA), and even a solar lease option. The main solar service from Vivint includes an entire smart home system, truly setting it apart from the rest of the competitors on the market.
