PVTIME - SERMATEC has launched an innovative 5.1MW/17.8MWh commercial and industrial energy storage system in Bulgaria. This groundbreaking project is set to transform the local ...

This project uses SERMATEC's self-developed EMS system, integrating PV power generation to achieve self-consumption of solar and energy storage. The EMS not only stores excess ...

SERMATEC has introduced a 5.1MW/17.8MWh energy storage system in Bulgaria, aimed at enhancing solar power efficiency for commercial and industrial use.

Summary: Discover how large energy storage cabinets in Plovdiv, Bulgaria, are transforming industries like renewable energy, manufacturing, and commercial infrastructure. Learn why local suppliers ...

By integrating Sunpal's 500kW energy storage system, customers can store low-cost electricity generated during the day for use at night, effectively capitalizing on the price differences.

This system is compatible with existing or new solar installations. The cabinet has a modular design with storage from 9 to 18 kilowatt hours, allowing backup power to your entire home.
