The short answer is no, you can't get free solar panels from the government. That being said, there are many incentives put in place by the Federal Government to help homeowners transition to solar ...

Government assistance for solar panels can make clean energy affordable for millions of American households. With programs ranging from the 30% federal tax credit to specialized assistance for ...

Photovoltaic systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements. Tax Credit includes installation costs. The home served by the system does not have to ...

This guidance document describes best practices for appropriately explaining and characterizing your solar power activities and the fundamental importance of renewable energy certificates (RECs) for solar power use ...

For example, roof trusses and traditional shingles that support solar panels don't qualify, but solar roofing tiles and solar shingles do because they generate clean energy. Purchase, install and use your ...

Learn how the 30% federal solar tax credit works in 2025. Find out if solar generators qualify, who's eligible, and how to claim your savings before the credit expires.

Curious what solar incentives you can get? Explore tax credits, rebates and more by state. Learn about net metering and other financial incentives.

Local Utility RebatesSubsidized LoansTax ExemptionsSolar Renewable Energy CertificatesNet MeteringLocal utility companies often offer rebates for installing a solar PV system. These subsidies are excluded from income taxes. The rebate amount is subtracted from the total solar system cost before calculating the solar tax credit.
