-----

It may seem convenient to keep your hand vac below your sink for easy access, but because these items can be irreversibly damaged by water, it's better to keep them in a separate ...

The cabinet under the kitchen sink is valuable storage space--but it shouldn't be used for everything.

The sink cabinet, in the lower part that usually has doors, is a very easy place to store a multitude of items you don't know where to put

Because of its central location, the cupboard under the kitchen sink is a great place to store things you frequently need and use. This could include sponges and scrubbers, garbage bags, ...

Ideally, you should store bags in a utility closet or a cabinet located above the sink, out of the reach of children. If you have no place to store your many trash bags, consider replacing them ...

In conclusion, while the under-the-sink cabinet can be a convenient storage spot, it's not suitable for everything. By being mindful about what you store there, you'll protect and extend the life ...

While it makes sense to use the cabinets under the kitchen sink for certain miscellaneous items that don't fit anywhere else--like trash bags and extra cleaning supplies --certain things ...

Under the sink is a poor location for anything that can be ruined by water or moisture. Paper towels, tissues, paper bags, cardboard, cookbooks, and owner's manuals can all be ruined by ...

The area under any sink is already cramped, but kitchen sink cabinets pose one of the greatest home storage challenges. Between water supply pipes, the garbage disposal, and water ...

Cleaning products, household extras and light bulbs: It's easy to store those miscellaneous extras wherever you can find room -- especially under the sink. But don't let that space become a catchall.
