The next public station will be located in Green Point along the Flying Circle interchange, where commuters will be able to walk to the nearby Cape Town Stadium. The plan suggests that ...

Valued at R700m, Erf 2187 in Green Point could become the headquarters and terminus of a proposed sky-train, forming part of an ambitious expansion of the V& A Waterfront at Granger Bay.

This is currently a proposal by Gareth Ramsay for a Skytrain that would link Cape Town CBD and the airport via a Skytrain.

Gareth Ramsay, a South African development engineer, is the man leading a proposal to introduce a "sky train" system to Cape Town. He argues this would ease traffic congestion, modernise...

The proposed development, which will include the construction of three to four new stations, aligns with the City of Cape Town's Transit-Oriented Development (TOD) strategy. This ...

The City of Cape Town unveiled a draft urban design concept plan for this enviable sliver of land. Named Erf 2187, it is positioned near the Sea Point Promenade, V& A Waterfront, and Cape ...

Cape Town development engineer Gareth Ramsay proposes an innovative elevated train line to connect key areas, aiming to ease traffic congestion and enhance public transport.

Proposed stations include Sea Point, DHL Stadium, the CTICC, Woodstock, Athlone Power Station and Cape Town International Airport. For cruise visitors, this could also improve ...

Cape Town development engineer Gareth Ramsay has put forward a bold new plan to address the city's transport challenges, an elevated "sky train" system connecting the CBD to the ...

Among the proposals is an ambitious "sky train" project led by South African development engineer Gareth
