A Houston homeowner says she felt pressured into solar panels, never activated them, and is now facing a \$134,000 bill. Consumer advocates say her story is becoming more common.

What you think they do is one thing, but what they actually do can be completely different! Here are real life solar panel experiences, dos and don'ts.

A lot of states are proposing adjustments to net metering, where you would no longer get paid the retail rate for energy you generate from panels. If that goes away, be prepared to have the payback period ...

Which? members tell us the pros and cons of getting solar panels, including the challenges of choosing an installer

Solar panels are supposed to SAVE money--but what if they cost you everything instead? In this eye-opening video, we dive deep into the dark side of solar panel deals.

One homeowner shared some of his solar power regrets, trying to help others avoid making the same mistakes when installing panels.

If you have considered all of these factors and decided that solar panels are right for you, then you can begin the process of installing them. However, if you have any doubts or regrets about ...

Has anyone had solar panels installed and immediately regret it once they FINALLY get up and running? I am wanting them off my roof and out of our...

I'd want to know how much are the panels, installation & batteries & an estimate of how much energy they would be making each year & potential savings. How often do you look at your ...

Do you regret installing photovoltaic panels Zhihu

It seems I am getting no credit for the kwh"s produced, and that the panels don"t seem to produce as much as the company said they would. The power company (Duke Energy) makes no sense of what ...
