Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO4 battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

Who are Dragonfly batteries?

Dragonfly is an industry-leading manufacturer of deep cycle lithium-ion batteries making affordable and effective energy storage the renewable energy landscape of the future.

Are Dragonfly energy batteries good for off-road applications?

Lithium batteries from Dragonfly Energy provide several benefits that help you cut time and cost over time. These batteries are ideal for off-road applications since they are built to handle vibration and are equipped to withstand environmental elements. Dragonfly Energy batteries offer enough power needed to complete daily operations.

Are Dragonfly batteries safe?

The best power in compact locations is provided by Dragonfly Energy batteries, which also make driving safer, simpler, and non-toxic. Batteries can be safely installed inside your RV or even under your bed without having to worry about off-gassing or smells.

Dragonfly is an industry-leading manufacturer of deep cycle lithium-ion batteries making affordable and effective energy storage the renewable energy landscape of the future.

Dragonfly Energy has emerged as a key player in this sector, specifically focusing on sustainable and innovative battery solutions. With its proprietary manufacturing processes and ...

RENO, Nev., Nov. 25, 2025 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in energy storage and ...

--Dragonfly Energy Holdings Corp., an industry leader in energy storage and battery technology and maker of Battle Born Batteries &#174;, has been named the "Battery Technology ...

# Dragonfly batteries

Dragonfly Energy Holdings Corp. specializes in manufacturing deep-cycle lithium-ion batteries designed for applications like RVs, marine equipment, and off-grid energy storage. ...

Dragonfly Energy is the leading North American battery manufacturer of high-quality lithium-ion batteries providing energy storage solutions.

Dragonfly manufactures lithium ion battery storage solutions that can be used in a variety of systems, namely RV, off-grid, marine, and industrial applications.

Dragonfly Energy Corporation, established in 2012 and headquartered in Reno, Nevada, is a leading North American manufacturer of lithium-ion batteries specializing in advanced LiFePO4 energy ...

A leader in lithium-ion batteries, Dragonfly Energy makes renewable energy accessible and affordable. These deep cycle lithium-ion batteries are designed specifically for OEMs. Dragonfly Energy ...

Dragonfly Energy offers LiFePO4 battery packs, power systems, and alternator charging solutions for recreational vehicles. Learn how Dragonfly's products ...

Dragonfly Energy CEO Pioneers Dry Electrode Technology for Lithium Batteries, Transforming RV Industry  
Denis Phares left academia to tackle renewable energy storage ...
