Low operating costs are crucial for land drilling companies. Hybrid drilling solutions utilize battery energy storage systems (BESS) to efficiently manage power generation asset utilization.

At REI Drilling, Inc. and DPI ("REI"), we're more than just a directional drilling company--we're an innovative force serving the global mining and civil industries.

Designed to optimize power generation, energy storage solutions such as the Hybrid Energy Management (hEMS) Systems are purpose-built to improve energy efficiency and reduce emissions.
