Discover how solar battery storage can cut your electricity bills, boost energy independence, and support a greener future.

From making the most of your surplus solar energy to storing cheap, night-rate electricity, our guide to home storage batteries asks if they're worth it and how much you can save

In a bid to support Irish grid stability, Electricity Supply Board (ESB) has opened a major battery plant at its Poolbeg site in Dublin, which will add 75MW/150MWh of fast-acting energy storage.

Our dedicated team of experts leverages decades of expertise in energy storage and solar power, specializing in lithium-ion battery applications. Our renewable strategies are designed to be cost ...

The Poolbeg Battery Energy Storage System in Dublin went into operation in November 2023 and has the capability of providing 75MW of fast-acting energy storage.

Standalone batteries typically consist of lithium-ion cells, which offer high energy density, long cycle life, and efficient charge/discharge capabilities. We also develop Hybrid Energy Storage System (HESS) ...

Electricity Supply Board (ESB) officially opened its 75MW/150MWh battery energy storage system (BESS) in Dublin last week (7 February), making it the largest project of its kind in ...

Battery energy storage systems, or BESS for short, are a relatively new development in Ireland and, if built on your farm, it could be one of the most profitable lease agreements going, while ...

Every property is different, which is why we customise our solar PV and battery storage systems to suit your energy needs. Whether you're looking to reduce household energy costs or improve the ...

Dublin grid-side energy storage solar container lithium battery

Store your solar energy for when you need it. Our battery storage systems help reduce reliance on the grid, cut bills and protect against outages. Based in Dublin with SEAI support.
