-----

Showcasing high quality, high performance, high reliability and high stability with air insulation, the FJ series facilitates a low cost of ownership with the excellence and technical support of XP Power ...

XP Glassman's FJ Series of 120 W high voltage AC/DC power supplies feature flexible embedded controls with low ripple and noise. They are air insulated, fast response, 1U rack-mount units with ...

View online or download Xp GLASSMAN FJ Series Instruction Manual.

The FJ series offers a wide range of standard outputs up to 60kV at 120W in a light form factor with various output control options, input voltages, and low output discharge currents allowing for ...

This section describes the specific implementation of the XP Power High Voltage RS232/USB/Ethernet Serial Data Interface for the ET/EJ/FJ/FR series power supplies.

The FJ Series consists of 120W regulated high voltage DC power supplies, ranging from 1 kV to 60 kV, designed for laboratory use with features such as constant voltage/current operation, arc quenching, ...

The 120W FJ series is a high quality, high performance, high reliability & high stability high voltage power supply with low ripple & noise. Air insulation reduces weight and facilitates a lower cost of ...

The FJ Series of 120 watt high voltage supplies feature flexible embedded controls with low ripple and noise. They are air insulated, fast response units, with tight regulation and extremely low arc ...
