Do solar panels work in Ireland?

Ireland's climate, with its long daylight hours, is ideal for solar panels. Even on cloudy days, modern panels efficiently generate electricity, reducing your energy bills and carbon footprint. Read more here. How much can I save with solar panels?

How do I choose the best solar installer in Ireland?

When choosing the best solar installer in Ireland, it's important to select a trusted partner who offers more than just panels and wiring. Zetta is one of Ireland's leading renewable energy service providers, delivering an end-to-end experience that goes beyond installation.

How much do solar panels cost in Ireland?

The cost of solar panels in Ireland depends on several factors, including the size of your system, whether you include a battery, and the type of roof or building structure. As of 2025, the average cost of a 3kW solar system ranges between EUR5,000 and EUR6,500 after SEAI grants are applied. A 4kW system usually costs between EUR6,500 and EUR8,000.

Can I get a solar panel grant in Ireland?

Yes, the SEAI (Sustainable Energy Authority of Ireland) offers excellent solar panel grants under its Solar PV Scheme. Homeowners can receive EUR800 per kilowatt-peak (kWp) for the first 2kWp installed, and an additional EUR250 per kWp for the next 2kWp, up to a maximum of 4kWp. This means the total grant available can go up to EUR2,100.
