what kind of cardio do you guys stick with on keto. Obviously your not full of carbs all the time so I would have thought HIIT would need to be limited.

China's 1.4 TW operating solar and wind outstrips thermal power In Q1 2025, China's wind and solar capacity surpassed its thermal (coal and gas) capacity for the first time, supplying nearly 23% of the ...

The offshore section comprises solar power generation, with the generated electricity transmitted to the onshore step-up substation via an overhead corridor bridge and integrated into the...

To achieve efficient solar energy utilization, this research designs an under-bridge photovoltaic structure. The outdoor photoelectric effect test was used to investigate how the bridge ...

In this paper, an open dataset consisting of data collected from on-site renewable energy stations, including six wind farms and eight solar stations in China, is provided. Over two years...

In CY2024, China hit a new record of annual net new capacity added to the grid at 429GW, a 21% y-o-y

increase. Of this, wind and solar power combined capacity accounted for 83% at 356.5GW, dwarfing ...

We comprehensively evaluate concentrated solar power (CSP) potential in China across four dimensions: geographical, technical, economic, and CO2 mitigation, and extend the analysis ...

a question about kettlebell training This question may not belong in the equipment forum, but i know a few of the people who in here know quite a bit about KB training and i'd ...

To meet China's goal of carbon neutrality by 2060, substantial investment in upgrading power systems needs to be made to optimize the deployment of new photovoltaic and wind power ...

Far off the coast of Shandong, a new kind of power plant is quietly feeding China's coastal cities. A vast field of solar panels, fixed to steel trusses in shallow water, has become the world ...

This paper reviews the current status of solar power generation and its integrated application in the transport sector.
