Guyana Power and Light has launched a tender for an EPC contractor to build three solar plants in Guyana with a combined 15 MWp capacity and 22 MWh of battery storage.

The BESS forms a critical part of the power plant's emergency support system and is engineered to ensure uninterrupted energy delivery in the event of [...]

The plant is part of Guyana's \$83.8 million Utility-Scale Solar Photovoltaic (Guysol) Program, which targets 33 MWp of solar and 34 MWh of storage across eight sites under the nation's ...

The Gas-to-Energy project, originally scheduled for completion by the end of 2024, has been delayed. Prime Minister Mark Phillips said in May that the facility is now expected to be ...

This report provides a comprehensive, evidence-based assessment of these claims, examining the current state of renewable energy projects in Guyana across four key areas: biomass, ...

From flood-resistant battery racks to smart energy management software, Guyana's emergency power infrastructure is entering a new era. The right storage solutions don't just keep lights on - they keep ...

A United States-based company, Curlew Mid-stream, has sealed a refined fuels venture with Guyana, aiming to enhance the country's energy security and affordability while ...

Continued investments in the Gas-to-Energy project, a major expansion of the power lines and GPL's overall electricity grid, and more renewable energy projects are among the projects ...

As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and reliability, helping to stabilise the national grid, reduce carbon ...

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy

Guyana Energy Storage New Energy

storage system (BESS) and a 13.8 kV transmission line.
