Mobile systems for sludge dewatering or thickening can be installed for long-term use or simply serve as a temporary solution for a few weeks or months. Fully mobile use is also possible at any time.

Whether you need a temporary solution to continue treatment during maintenance or to meet standards and regulations, we offer a full line of mobile equipment and systems.

With the COSMOS high-pressure system from heiserTEC, we offer a modular solution that is used worldwide in energy projects, research facilities, and industrial applications.

Discover efficient containerized water treatment plants designed for quick deployment and scalable water purification. Ideal for industrial, municipal, and remote applications. Enhance water ...

Our mobile water treatment systems are deployed via stand-alone units or modular units in combination to form complete systems with state-of-the-art purification technologies.

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure.

KLARO Container is a flexible and mobile wastewater treatment system that can be used where a wastewater treatment system is required but there is no connection to the sewer system.

The ClearFox® Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. As a modular solution, it is easily transportable by land ...

Mobile container based waste water treatment plants. Sometimes a mobile, rapidly available or particularly

High-pressure type mobile energy storage container for wastewater treatment plants

space-saving solution for wastewater treatment is sought.

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable waste water treatment system solution for any sites, without the need for any existing ...
