The core question How can I configure XRDP on Xubuntu 24.04 to start a new XFCE session that loads my full user environment (panels, launchers, desktop layout), providing the same ...

The "configure" command is NOT a standard Linux/UNIX command. configure is a script that is generally provided with the source of most standardized type Linux packages and contains code that will ...

Run the command it tells you to `sudo dpkg --configure -a` and it should be able to correct itself. If it doesn't try running `sudo apt-get install -f` (to fix broken packages) and then try running `sudo ...`

It completely depends on the configure script. If the configure script was generated by autoconf, then the "correct" way to ensure that `/usr/local/lib` and `/usr/local/include` are used in the ...

Step 3: Measure from Top Line to Top of Battery Cabinet Bracket NOTE: All three brackets will be at different heights upon completion.

Configure two network cards persistently Ask Question Asked 1 year, 9 months ago Modified 1 year, 9 months ago

I'm trying to install a Debian package from source (via git). I downloaded the package, changed to the package's directory and ran `./configure` command but it returned `bash: ./configure: No ...`

How to add libraries path to the `./configure` command? Ask Question Asked 12 years, 2 months ago Modified 6 years, 8 months ago

Each battery cabinet is equipped with a liquid cooling system, which can thermally manage the battery cluster, enabling the battery to operate at the most suitable temperature range, improving the ...

How to configure solar container battery cabinet

Explore the process of installing solar battery storage and what to expect at each stage. Plus, learn whether it makes more sense to install a solar-plus-storage system upfront or add a battery later.

What does ./configure do? Why make then make install? How does it know where libs are? (they are all there and loaded but it cant find them.) Why need libs if compiler is supposed to compile?

I would like to know the exact background tasks that happen when you install an application from source. What happens when you run ./configure, make, and make install? I tried ...

When you run ./configure --prefix= directory, you are indicating that the software should be installed under the directory directory. But this rarely, if ever, places loose files in directory.

Follow this detailed guide for a smooth installation of your solar battery cabinet and maximize renewable energy use

o The battery cabinet contains an internal energy source. Hazardous voltage can be present even when the UPS system is disconnected from the utility/ mains supply. Before installing or servicing the UPS ...

This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, assembly, wiring, and system testing.
