-----

Huawei LUNA2000-7-E1 7kWh Battery Module, expandable up to 21kWh per tower and in parallel up to 4 towers. The Huawei LUNA2000-10KW-C1 BMS is required for each tower.

In addition to the superior battery chemistry, Huawei employs intelligent energy management systems that optimize the performance of energy storage modules. These systems ...

Designed for high usable energy through pack-level optimization and full depth-of-discharge operation, the module integrates lightweight power components and automatic commissioning for seamless ...

Designed for efficiency, safety, and flexibility, this modular energy storage solution helps homeowners and businesses make the most of their solar power -- with seamless performance, ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

Thanks to its high efficiency, modular design, advanced monitoring and control, safety features and support for renewable energy sources, this solution is the ideal choice for those looking ...

The Huawei LUNA2000 smart battery for home use, has a unique design and uses lithium-iron-phospharon cells for increased safety. It has a modular design and allows flexible power expansion ...

Designed for high usable energy through pack-level optimization and full ...

By integrating Smart String ESS with Smart PV, Smart Charger and ...

It can store and release electric energy based on the requirements of the inverter management system and is of modular design, the basic Battery Module being rated at 5kWhrs.

# Huawei Intelligent Energy Storage Battery Module

Buy Huawei LUNA2000-7-E1 6.9 kWh Battery: Scalable storage up to 82.8 kWh, IP66, built-in optimizer and compatible with SUN2000 inverters.

By integrating Smart String ESS with Smart PV, Smart Charger and SmartGuard, FusionSolar provides generation, storage, consumption and intelligent energy backup for a comprehensive power solution.
