Establishments primarily engaged in installing solar panels or solar heating equipment are classified in Industry Group 2382, Building Equipment Contractors. Get detailed descriptions of NAICS codes to ...

NAICS Code 221114 Description This U.S. industry comprises establishments primarily engaged in operating solar electric power generation facilities. These facilities use energy from the sun to ...

The NAICS code 221114 is described as Solar Electric Power Generation. It is part of the Electric Power Generation, Transmission and Distribution (2211) Industry Group, and part of the Utilities (22) Sector.

What is NAICS code 221114 - solar electric power generation? NAICS Code 221114 - Solar Electric Power Generation is a final level code of the "Utilities" Sector.

NAICS 221114 - Solar Electric Power Generation encompasses the production, installation, and maintenance of solar photovoltaic (PV) power generation systems and related infrastructure.

While no single code perfectly encapsulates all facets of renewable energy production, several codes cover specific sectors like solar power generation (4931), wind power generation ...

The NAICS code 221114 is applied to those industries related to Solar Electric Power Generation. This U.S. industry comprises establishments primarily engaged in operating solar electric power ...

NAICS 221114 Solar Electric Power Generation covers establishments primarily engaged in operating solar electric power generation facilities and supplying the electricity produced to transmission or ...

Important products of this industry are semiconductor diodes and stacks, including rectifiers, integrated microcircuits (semiconductor networks), transistors, solar cells, and light sensing and emitting semi ...
