Which solar generator should I buy?

If you need a larger, potentially expandable solar generator that offers a good dose of portability, it can't be beat. The Anker Power Station 767 solar generator's high capacity and fast charging make this long-lasting battery a solid everyday driver.

Should you buy a solar generator or a gas generator?

Gas generators still have a place in extreme backup scenarios, but for most households, solar covers the essentials without the fumes or fuss. And if you do need something with more output, especially for larger homes, it's worth looking into the whole house generators that offer robust power and automatic operation.

Are solar generators good for home backup?

Many homeowners use solar generators daily for RVs, cabins, or to reduce grid dependence. They're also ideal for portable solar power during outdoor adventures or camping. Looking for the best solar generators for home backup?

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.
