-----  
Why should Mauritania invest in a battery energy storage facility?

The project will finance Mauritania's first large-scale battery energy storage facility, enabling the country to harness its abundant solar and wind resources for more reliable electricity. This investment is critical to the success of Mauritania's Mission 300 Energy Compact, which aims to achieve universal access to electricity by 2030.

Will Mauritania become a leader in green energy?

"This project will position Mauritania as a leader in critical minerals, green hydrogen and energy storage, --driving job creation and expanding economic opportunities for all Mauritians," said Demetrios Papathanasiou, Global Director for Energy & Extractives at the World Bank.

What is Mauritania's dream project?

NOUAKCHOTT, March 27, 2025 - The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project--known as the DREAM Project --to boost green hydrogen development, expand energy storage, and support critical reforms in the mining sector.

Why should Mauritania invest in Dream?

This investment is critical to the success of Mauritania's Mission 300 Energy Compact, which aims to achieve universal access to electricity by 2030. DREAM is key to helping Mauritania estimate and promote its critical mineral potential through geological surveys.

The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project--known as the DREAM Project--to boost green ...

On 12 September 2025, Mauritania signed a \$300 million agreement with renewable energy developer Ewa Green Energy to construct a 220-megawatt (MW) hybrid power plant near Nouakchott.

Mauritania has signed a \$300 million agreement with renewable energy developer Ewa Green Energy to construct a 220-megawatt (MW) hybrid power plant in the country. The project is ...

The World Bank Group has approved the Development of Energy Resources and Mineral Sector Support

# Mauritania Energy Storage Power Generation Project

Project, known as the DREAM Project, to strengthen Mauritania's energy and mining ...

Mauritania has received the finance to implement two energy projects that encompass solar power generation, transnational electricity interconnection and rural electrification. How many solar panels ...

Mauritania has entered into a 0 million Power Purchase Agreement (PPA) with Ewa Green Energy to develop a cutting-edge hybrid power plant featuring 160MW of solar energy, 60MW ...

The DREAM Project aligns with Mauritania's Mission 300 Energy Compact, which targets universal electricity access by 2030. Part of the initiative is the construction of Mauritania's first utility ...

Briefing Mauritania has initiated a significant energy development by signing public-private partnership agreements for a 220 MW hybrid solar-wind power plant, featuring a substantial ...

Mauritania has signed its first public-private partnership (PPP) in the energy sector for the construction of a hybrid solar and wind facility. The government has entered into an agreement ...
