A 200 MWh solar plus storage farm planned for Glorit near Auckland, on the north island of New Zealand, has been granted resource consent and a notice of requirement by an independent ...

New Zealand's Environmental Protection Authority (EPA) has issued resource consents for a utility-scale project combining a 179-MW solar park with a co-located battery energy storage ...

New Zealand's Environmental Protection Authority (EPA) has issued resource consents to a project set to create a 179-MW solar park with a co-located battery energy storage system ...

The project will be operational by March 2026. Contact Energy (Contact) has answered calls for more energy storage by contracting with Tesla to build a 100-megawatt (MW) battery, which ...

Distributed solar generation is expected to keep increasing, and New Zealand also now has some grid connected solar farm projects under construction, with more in the pipeline. The first ...

The project involves constructing and operating an approximately 179MW photovoltaic solar farm with energy storage and a 33kV transmission line, and an ancillary substation at Glorit, ...

A significant step has been taken for renewable energy in New Zealand with the approval of the 179 MW Auckland Solar-Plus-Storage project. An independent panel has given the project the ...

Founded in 2004, the Energy Centre is a transdisciplinary faculty research centre. We gratefully acknowledge the support of the Energy Education Trust of New Zealand, which funds a wide array of ...
