-----  
How much does solar cost in Nicaragua?

Solar obviously changed our bills, average is around \$10 per month instead of \$150. But even better is we don't notice the power outages anymore. I previously worked with the "best rated" Nicaraguan solar company and the workmanship and professionalism was not even close to Nicamisol's.

How long does it take to install a solar photovoltaic system?

We plan and install your solar photovoltaic system which usually takes us 2-3 days in case of rooftop residential systems. After your system is up and running, we continue with ongoing support and monitoring. Our clients can have peace of mind knowing that we are monitoring their system. Our equipments have 25 years of warranty.

Why should you install a solar system?

Potential buyers see solar installations as an upgrade. It makes your house an overall sound asset that increases in value over time. You won't have to worry about outages. You'll pay less per kW per month. We monitor your system in real time and are able to respond quickly.
