-----

The project is Norway's first large-scale solar power plant on a landfill site, and the very first major solar power plant in Western Norway. In June 2024, the project received a 30-year operating permit from ...

With a total installed capacity of over 7,500 kWp and as many as 12,000 solar panels, the plant will be Norway's largest in both rooftop and ground-mounted solar power systems.

Oslo solar container company If you've ever wondered how Norway keeps its fjords sparkling and its cities buzzing with clean energy, look no further than Oslo Solar Energy Storage Equipment ...

Norway's energy costs jumped 28% last year, but businesses are turning crisis into opportunity. Solar Container Projects now deliver 12-15% annual ROI here - the highest in Scandinavia.

The concession was awarded for the Raufoss Solar Power Plant, a 46 MWp project set for development at Raufoss Industrial Park, one of Norway's largest industrial facilities.

As of the beginning of 2025, the total installed capacity for solar power in Norway was 767 MW. In 2023, over 90 percent of the solar power capacity was connected to the Norwegian power grid.

In April 2024, Brunvoll finished installing one of Norway's largest solar power plants on its factory roof in Molde. The 7,400 square metres of solar panels were estimated to produce 1,350,000 kWh annually, ...

From remote telecommunication stations to coastal fish farms, dedicated outdoor power supply systems ensure uninterrupted operations where conventional grids falter.

Brunvoll has a clear sustainability strategy and continuously works to reduce its environmental impact. As a result, Brunvoll has chosen to invest a double-digit million amount (in NOK) to install 7,400 ...
