Laminating adhesives are essential in bonding these backsheets securely to the solar cells and other layers, ensuring durability and performance over decades.

SOLARTAB™ is a solar cell interconnection adhesive designed for cost-effective melt-tabbing to replace traditional pre-tin tab soldering process for solar cell interconnection.

PTFE coated fiberglass fabrics are made of high-performance glass fiber fabric impregnated with PTFE emulsion. It's designed for varieties of applications in diverse industries where high temperature, non ...

Whether it's for use with standard, fast or ultra-fast cure encapsulants and laminating processes, Flexcon MultiGuard™ multi-layer backsheet products offer long-life UV and moisture protection and ...

That's why those solar module makers need our flexible, resilient, and durable silicone membrane sheets specially designed for use in solar laminators to provide compression on the photovoltaic ...

Solar silicone sheet (silicone rubber sheet for photovoltaic module laminator) is a customized high-temperature resistant silicone sheet whose thickness can be adjusted according to process ...

Double sided, adhesive foam tape bonds and seals photovoltaic laminate in the aluminum frames. Our mess-free PV module frame tape is more efficient than liquid or butyl adhesives. It's also easier to ...

The 5th-lite Gen silicone sheeting is an exclusive laminate produced from a unique pressed composition giving extended life in solar panel production. It has an EVA resistant fluorine laminated surface with ...

We have made it easy to find the perfect adhesive tape solution for your solar panel needs. Whether you're mounting flexible or rigid panels, our product finder helps you navigate through various ...
