Module Lift is a must-have tool for any solar panel installer looking to maximize efficiency and save time on every job. The Module Lift(TM) uses your existing fiberglass Werner or Louisville extension ladder. A ...

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

When the sun shines on a solar panel, solar energy is absorbed by individual PV cells. These cells are made from layers of semi-conducting material, most commonly silicon.

How to Prepare Your Roof For Mounting Solar Panels  
How Heavy Are Solar Panels For You and Your Roof?  
What Solar Panel Lifting Systems Are there?  
The Solar Panel Caddy  
There are a few options available, like Solar Buddy and ladder pulleys that all use a similar concept of a winch or pulley and a frame to lift panels, and you can also get lifting bags and the solar panel caddy. See more on solvoltaics Cole-Parmer
