GEDA Solarlift is a reliable device on every construction site to transport and assemble solar panels and photovoltaic systems securely. The solarlift also comes with an extra post that supports the ladder ...

Capable of lifting heavier solar equipment and materials--up to a ton in weight--and reaching heights of up to 700 feet, this hoist is engineered to handle the demands of larger-scale solar installations.

It takes less than 30 seconds to safely and easily lift solar panels and equipment to a two-story roof. At the end of the day simply tuck your lift into a regular work van, or even a car, where it is ready to set ...

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust ...

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

A module hoist, also known as a PV panel hoist or material hoist, is a mechanical device designed to lift and transport PV panels to elevated areas like roofs or scaffolding.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

Alum-a-Lift is pleased to provide engineered material handling solutions to the solar, power, and energy industries. The standard chassis offers proven lifting power and allows for heavier and dynamic side ...

The 3S LIFT Ladder Hoist System is a portable solution for lifting heavy & oversized materials, like CMU/Ballast Block and Solar Panels/Modules, vertically to the rooftop hands-free.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses

Photovoltaic panel loading machine hoist

your existing fiberglass Werner or Louisville extension ladder.

Geda Solarlifts - Different Modalities For Your Application Area
Unique Concept: The Solar Platform
Geda Solarlift - One Device, Several Advantages
The GEDA Solarlift has particularly been designed for working with sensitive materials and offers a specific solar platform for a safe transport of expensive solar panels. The platform provides a specially developed plastic surface and an extra fixation possibility which can be adjusted as desired. The second transport variation is the collector pl...
