This dashboard ranks countries/areas to their renewable energy power capacity or electricity generation. The data can be further refined based on region, technology or year of interest.

Data source: Global Power Plant Database (WRI) -- CC BY 4.0; plus OSM/RestCountries/OWID, where noted.

Renewable energy statistics 2025 provides datasets on power-generation capacity for 2015-2024, actual power generation for 2015-2023 and renewable energy balances for over 150 countries and areas for ...

To meet this growing demand, top renewable energy companies in the world are investing heavily in solar, wind, hydro, and other renewable projects, targeting to achieve 100 GW of gross installed ...

Explore the global power plant database with interactive maps, statistics, and insights

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with power for heating and ...

This article will mainly explore the top 10 energy storage manufacturers in the world including BYD, Tesla, Fluence, LG energy solution, CATL, SAFT, Invinity Energy Systems, Wartsila, ...

Put the latest detailed information to use for your business, including country and company analytics, and a built-in, five-year power-mix forecast you won't find anywhere else.

Enter the unsung heroes: foreign energy storage power stations. From Australia's outback to Germany's high-tech hubs, these facilities are rewriting the rules of energy reliability.

Global dashboard of data on nuclear reactors.
