Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, solar energy, policy & projects.

U.S. residential solar companies are preparing for a steep drop in business this year after the expiration of a federal tax credit that helped drive more than a decade of rapid growth, prompting...

Find the latest research papers and news in Solar Thermal Energy. Read stories and opinions from top researchers in our research community.

Higgins M. Wilson and colleagues report a high-performance interfacial steam generator that combines solar and high-power Joule heating for rapid water evaporation. This was enabled by ...

All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and forecasts, financial news, large projects, governmental ...

Solar Energy Information. Read the latest news and techniques for efficient solar photovoltaic power, new solar energy systems and more.

Solar power Solar and wind power has grown faster than electricity demand this year, report says A new analysis of solar and wind power shows its generation worldwide has outpaced electricity demand ...

An innovative thermal battery being developed by Curtin University researchers will be key to a solar power system capable of producing electricity overnight, rivaling fossil fuels as a viable...

SETO released a notice of funding opportunity for research, development, and demonstration projects that commercialize innovative solar PV technologies in crystalline silicon module, cadmium telluride ...

Find news and information about policies, regulations, business models, technology & market trends in solar

heat for buildings and industry.
