The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

SolarBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring reliability, efficiency, and ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the voltage requested.

Plug and Play Outdoor BESS Container 300kw 500kw PCS Solar Hybrid Inverter with 600kwh 1mwh Battery Capacity

Customers can customize power capacity, battery storage, inverter types, and auxiliary power sources like diesel generators or wind turbines to tailor the container for specific mission requirements.

It is possible to install batteries and inverters and to retrofit the SunBOX 30A with an additional power generator, thanks to which your power plant will always be reliable.

Solar container outdoor power plus inverter

The inverter and all other electrical components are delivered, installed and commissioned with the Solarcontainer. However, for country-specific requirements, the inverter can also be provided by the customer.
