Explore how Dominica schools are embracing solar microgrids for energy resilience, and their transformative impact on community planning and disaster preparedness in the Caribbean.

Installation is already finished, and final testing is underway from 30 April to 4 May 2025. The project represents not only a technological breakthrough but also affirms Dominica's institutional ...

Welcome to Wasion Energy! We focus on solutions and key equipments for Source-Grid-Load-Storage of power system. Hope you like it and find what you need.

Dominica's Climate Resilience and Recovery Plan operationalizes the National Resilience Development Strategy by providing an outline that will guide the preparation of sector strategies and plans. The ...

Contact us today to explore customized solar solutions for your needs, whether you're interested in grid-connected, off-grid, or hybrid solar systems. Our team at Solarvance is here to guide you through ...

It supports on-grid and off-grid operation and quick switching within 10ms, allowing energy to move on demand and greatly improving the local power supply stability.

We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ tablet and a few bulbs, to larger solar systems ...

Whether you require a rooftop solar plant, solar water heater, solar pump, solar light, or even a solar EV charging station, we have you covered. As a responsible solar energy company in Dominica, we are ...

Renewable energy systems, especially battery-integrated microgrids and distributed solar, improve preparedness for hurricanes and floods by decentralizing power and reducing dependencies on ...

Solar power with grid backup in Dominica

We build high performance photovoltaic systems that are designed to withstand the Caribbean region's extreme weather conditions. World-class engineering coupled with an acute focus construction ...
