Does the 2020 Tesla Model S have a long range?

The company introduced a Standard Range variant of the S in mid-2019 but discontinued it just weeks later, so the 2020 Model S is now only available as a Long Range Plus model with 402 miles of range, which was accomplished after Tesla made thoughtful changes.

How much does a 2020 Tesla Model S cost?

Based on listings for the 2020 Tesla Model S, the average list price is \$40,697. Prices range from \$40,697 to \$49,802 and vary depending on the vehicle's condition, mileage, features, and location. See the Best Used Car Deals » Want to trade-in or sell your current car?

Is the 2020 Tesla Model S a good car?

The 2020 Model S has aged handsomely, an evergreen hatchback in a world of flash and pomp. The Tesla Model S has grown old gracefully. There's little about the exterior styling that feels dated, which is why we give it a 7 out of 10 for style. A stark interior holds it back from a higher score.

Where is the 2020 Tesla Model S made?

For now, the 2020 Model S continues to be made at Tesla's home turf in California and offers the best performance in the lineup. We give the latest Tesla Model S a 8.2 out of 10 overall for its efficiency, performance, and style. (Read more about how we rate cars .)
